

COUNSELLOR ENRICHMENT COLLECTIVE

PROFESSIONAL DEVELOPMENT FOR EARLY CAREER COUNSELLORS

The CEC PD is a self-paced suite of six integrated modules that focus on professional identity development, ethical and reflective practice, applied counselling skills, working with students at risk, systems navigation and advocacy, and sustainable practitioner wellbeing. Each module combines evidence-informed learning, case-based discussion, practical tools, and guided reflection with explicit alignment to APAC competencies, APST Standards and professional codes of conduct.
