

UniSQ Ready Information for 2027

University of
**Southern
Queensland**

The [UniSQ Ready articulation tool](#) shows 2026 course information as Block 6 2026 applications are open until Monday 19 October.

The articulation tool is expected to be updated with 2027 course information before enrolments for 2027 open by the end of October.

The 2027 UniSQ Ready course equivalents are shown below. For students wanting to plan their studies, this information can be used alongside the articulation tool as a general guide for 2027.

From 2027, UniSQ Ready courses will have a **URY0XXX** course code to help students identify their courses more clearly. UniSQ Ready courses will be offered in Trimesters (13-week study periods).

Current UniSQ Ready students

For current students who started in 2026 or before and want to understand more about the changes, please see the Program Transition Guide in the [2027 UniSQ Ready Handbook](#).

- If you successfully complete a TPP-coded course by the end of 2026, you do not need to complete the equivalent URY-coded course.
- If you have not completed all relevant TPP-coded courses needed to meet the entry requirements for your program by the end of 2026, you will complete any remaining courses using the new URY-coded course equivalents from 2027.

If you need to study the following course and have not successfully completed it by the end of 2026	You will now complete (first offer from Trimester 1 2027)
TPP0111 Communicating at University A	URY0110 Communicating at University A
TPP0122 Study Management	URY0201 Managing University Study [^]
TPP0123 Communicating at University B	URY0202 Communicating at University B [^]
TPP0145 Introduction to the Humanities	URY0113 Introduction to the Humanities
TPP0155 General Science	URY0115 General Science
TPP0160 Preparatory Physics	URY0116 Preparatory Physics
TPP0175 Introduction to Psychology and Counselling	URY0114 Introduction to Psychology and Counselling
TPP0180 Introductory Mathematics AND TPP0181 Elementary Mathematics	URY0200 Fundamental Mathematics [^]
TPP0181 Elementary Mathematics AND TPP0182 General Mathematics	URY0203 Intermediate Mathematics for University Studies [^]
TPP0182 General Mathematics	URY0111 Applied Mathematics
TPP0183 Mathematical Methods	URY0112 Advanced Mathematics

[^] This course can be studied alongside either ONE other URY02XX-coded course (URY0200, URY0201, URY0202, URY0203), or TWO other URY01XX-coded courses within a Trimester, subject to meeting [pre-requisite or co-requisite](#) requirements.
