

# USQ Guidelines for Assessment Extensions

## Assessment Extensions

We understand there may be special circumstances that prevent you from submitting your assessment by the due date. An assessment extension of one week from the published due date may be offered if you cannot submit your assessment item due to reasons out of your control such as:

- Medical
- Employment
- Family/ personal
- Other

Further information about special circumstances is available in the [Assessment of Special Circumstances Procedure](#).

### How to apply

To apply for an assessment extension, please complete the online Assessment Extension application via your Student Centre > Online Requests tile > Add a New Request > Assessment Extension, attaching your supporting documentation.

Requests for extensions normally need to be submitted by the Assessment due date.

Extension requests submitted after the due date are only accepted where a Student can provide evidence in accordance with the [Assessment of Special Circumstances Procedure](#) that it was not possible to submit a request prior to the due date.

If the extension date applied for is after the last teaching day of the Semester, you may be provided with a [Deferred Assessment](#).

Further information is available in the [Assessment Procedure](#).

# Acceptable Reasons for an extension

## Extension for Medical Reasons

To be considered for an extension based on medical grounds, you must have your medical condition assessed by a medical practitioner, who can provide you with a medical certificate.

Special Circumstance	Examples of Documentation	Considerations for Assessment
<ul style="list-style-type: none"><li>• Medical illness or injury</li><li>• Psychological illness</li><li>• Cognitive function impairment</li></ul>	<ul style="list-style-type: none"><li>• Medical certificate or documentation or psychological report from a registered health practitioner</li><li>• USQ Learning Support Plan that references assessment extensions</li></ul>	<p>The medical certificate must be dated on or before the assessment due date/time. If this is not possible, it must state why the nature of your condition made it impractical for you to have obtained a medical certificate sooner.</p> <p>The reason provided cannot include non-critical medical needs, for example, a dental check-up.</p> <p>Where possible, the medical certificate must state how your condition affected your ability to submit your assessment by the due date; however, it does not need to disclose personal or sensitive information.</p>

If you have a disability, injury, mental health or medical condition that impacts on your ability to study we encourage you to meet with a [Student Equity Officer](#).

This could be to review your existing plan or create a new one to meet your needs. A Learning Support Plan that references assessment extensions will be considered as sufficient supporting documentation for the purpose of an initial assessment extension.

Where a subsequent assessment extension is requested, using only a Learning Support Plan as evidence, assessors will seek advice from the Student Equity Team.

## Understanding Special Circumstances

Please refer to section [4.2 of the Assessment of Special Circumstances Procedure](#) to understand what may not be considered extenuating circumstances to be granted an assessment extension.

Examples of unacceptable reasons to apply an assessment extension include:

- Changes to personal travel or holiday plans
- Misunderstanding due date and/or assessment expectations
- Inability to meet placement requirements as stipulated by the Course Specification (other than in special circumstances)
- Social events/commitments

Please see further information in [section 4.2 of the Assessment of Special Circumstances Procedure](#).

## Assessment extension processing

If you submit an Assessment extension request for an assessment item, and the instructions provided by your Course Examiner allow an extension, the request is approved in accordance with the Assessment of Special Circumstances Procedure and these Guidelines.

An extension of one week from the published due date, regardless of public holidays will be granted in most cases. Where special circumstances require a longer extension period, an extension or deferred assessment may be granted in accordance with instructions provided by the Course Examiner at the start of semester.

If you submit a substantiated Assessment extension request that is outside the instructions provided by the Course Examiner, the request will be escalated.

Subsequent Assessment extension requests may result in the granting of a varied or Deferred Assessment.

## **Subsequent assessment extensions**

You may submit reasons/supporting documentation for a subsequent assessment extension in accordance with the information above and the [Assessment of Special Circumstance Procedure](#).

If the extension date applied for is after the last teaching day of the Semester, you may be provided with a [Deferred Assessment](#).

Assessment extension requests will form part of your student record.

## **Outcome of extension request**

You will be advised of the outcome of your request (approved or declined) via email.

If you are unhappy with the outcome, you may seek a [review of decision](#). Review of decision requests will be escalated to the appropriate decision maker for review.

## **Late submission of assessment**

Late submission penalties do not apply to assessment extensions. If you have been granted an assessment extension and you do not meet the new deadline, you will not receive any marks for that assessment.

## **Fraudulent documentation**

Assessors may take steps to substantiate documentation submitted in support of assessment extensions, where appropriate. In cases where documentation is suspected as potentially fraudulent, requests will be escalated to the Associate Dean, Learning, Teaching and Student Success.
