Professional accreditation

The Information Technology major is accredited at professional level by the [Australian Computer Society](#) and, through the Seoul Accord, is recognised in other countries.

The Psychology major is fully accredited by the [Australian Psychology Accreditation Council](#) as a three-year sequence of study.

Program aims

The Bachelor of Arts and Bachelor of Science double degree aims to produce graduates who meet the aims and objectives of both the [Bachelor of Arts](#) and the [Bachelor of Science or Bachelor of Science \(Psychology\)](#) degree programs. See the handbook descriptions of both degrees for further details.

Admission requirements

To be eligible for admission, applicants must satisfy the following requirements:

- The specified minimum entry requirement as determined by Australian Tertiary Admission Rank (ATAR), or equivalent qualification.[^]
- Applicants must satisfy the requirements for admission to the [Bachelor of Arts](#) and the [Bachelor of Science or Bachelor of Science \(Psychology\)](#).
- English Language Proficiency requirements for Category 2.

All students are required to satisfy the applicable [English language requirements](#).

If students do not meet the English language requirements they may apply to study a University-approved [English language program](#). On successful completion of the English language program, students may be admitted to an award program.

[^] These are determined by the University for specific programs each Semester. The 2023 ATAR and tertiary entrance ranks are based on agreed QTAC schedules which assess formal study at Year 12 or [equivalent level](#), tertiary, preparatory, professional or vocational qualifications or work experience, as detailed in the QTAC Assessment of Qualifications Manual and QTAC Assessor Guidelines.

Adjustment factors may help you get into the program of your choice by increasing your entrance rank. The additional points don't apply to all applicants or all programs. Please read the information about UniSQ's [Adjustment Factors](#) carefully to find out what you may be eligible for.

Program fees

Commonwealth supported place

A Commonwealth supported place is where the Australian Government makes a contribution towards the cost of a students' higher education and students pay a [student contribution amount](#), which varies depending on the courses undertaken. Students are able to calculate the fees for a particular course via the [Course Fee Schedules](#).

Commonwealth Supported students may be eligible to defer their fees through a Government loan called [HECS-HELP](#).

Domestic full fee paying place

Domestic full fee paying places are funded entirely through the full fees paid by the student. Full fees vary depending on the courses that are taken. Students are able to calculate the fees for a particular course via the [Course Fee Schedule](#)

Domestic full fee paying students may be eligible to defer their fees through a Government loan called [FEE-HELP](#) provided they meet the residency and citizenship requirements.

Australian citizens, Permanent Humanitarian Visa holders, Permanent Resident visa holders and New Zealand citizens who will be resident outside Australia for the duration of their program pay full tuition fees and are not eligible for [FEE-Help](#).

International full fee paying place

International students pay full fees. Full fees vary depending on the courses that are taken and whether they are studied on-campus, external or online. Students are able to calculate the fees for a particular course via the [Course Fee Schedules](#).

Program structure

The Bachelor of Arts and Bachelor of Science double degree comprises 32 units as follows:

Core courses	7 units
Arts courses	12 units (1 x 8 unit major + 1 x 4 unit minor, or 1 x 12 unit major)

Science courses	13 units (1 x 8 unit major + 5 units of approved courses from Sciences courses (5 units or (1 x 4 unit minor + 1 unit)), or 1 x 12 unit major + 1 elective unit from Sciences courses)
-----------------	--

Required time limits

Students have a maximum of 9 years to complete this program.

Core courses

Students must take 4 core courses from the [Bachelor of Arts](#) and 3 core courses from the .

The Bachelor of Arts core courses are:
CMS1000 Communication and Scholarship (final offer Semester 1, 2023), OR HAC1000 The Skilful Communicator [£] (first offer Semester 2, 2023)
HAC1001 The Professional Self: Building Career Identity
HAC2000 Digital Worlds: Human Future (first offer Semester 1, 2024)
HAC3001 The Emerging Professional (first offer Semester 2, 2024)

Footnotes

£ In Semester 3, 2023 this course will be delivered as a Transition (9 week) semester, commencing on 13 November 2023 and concluding on 12 January 2024

Students should select their Sciences Foundation Studies core courses according to major, as listed below, except with the permission of the Faculty of Business, Education, Law and Arts.

	Computing, Information Technology	Mathematics and Statistics, Mathematics, Statistics and Physical Sciences	Plant Agricultural Science, Environment & Sustainability, Food Science, Human Physiology, Biology, Wine Science	Counselling, Psychology, and Psychology Extended
Enabling Studies 1	CSC1401 [£]	SCI1001	SCI1001	SCI1001
Statistics	STA1003	STA1003	STA1003	STA1003
Enabling Studies 2	MAT1101	CSC2410	MAT1100 ^{^#}	PSY1030

Footnotes

£ In Semester 3, 2023 this course will be delivered as a Transition (9 week) semester, commencing on 13 November 2023 and concluding on 12 January 2024

^ If students do not have the recommended Mathematics B level for entry then they will be required to undertake [MAT1000](#) as an elective before they attempt [MAT1100](#).

This course is equivalent to MAT1500.

Major studies

Arts Studies

The Arts component shall comprise:

- an eight (8) unit discipline based major from the majors available under the [Bachelor of Arts](#)
- a four (4) unit discipline based minor from the [Bachelor of Arts](#)
- Or
- one twelve (12) unit extended major from the majors available under the [Bachelor of Arts](#).

Note: At least two units from each major must be at third year level

Science Studies

The Science component shall comprise:

Either:

- an eight (8) unit discipline based major chosen from the majors under the (Animal Science, Biology, Computing, Counselling, Environment and Sustainability, Food Science, Human Physiology, Mathematics, Physical Sciences, Plant Agricultural Science, Statistics, Wildlife Management, Wine Science).
 - a four (4) unit study selected from one Science discipline. This four-unit study may or may not be in the same discipline as the eight (8) unit Science major or may or may not be a minor.
 - One (1) Science elective approved by the Faculty of Health, Engineering and Sciences.
- Or**
- a twelve (12) unit discipline based major chosen from the majors under the (Psychology, Information Technology or Mathematics and Statistics)
 - **and** one (1) Science elective approved by the Faculty of Health, Engineering and Sciences which may either extend the studies already selected or may be in an additional Science discipline area.

Note: the twelve (12) unit major in Psychology is an [Australian Psychology Accreditation Council](#) accredited sequence in Psychology, and students undertaking this major are eligible to apply to undertake the (Psychology) degree and thus pursue further training to become a Psychologist.

Additional Requirements - Science

- At least four (4) units of study in the Science component must be at third level and no more than seven (7) courses in the Science component must be at level 1.
- Candidates completing the major in Mathematics, Statistics or Mathematics and Statistics require Faculty approval to be given credit towards their award for the course [MAT1100 Foundation Mathematics](#) or for the course [MAT1000 Mathematics Fundamentals](#).
- Candidates completing the major in Computing or Information Technology will not be given credit towards their award for the course CSC1402 .
- Candidates completing the major in Computing or Information Technology can enrol in [SCI1001 Succeeding in Science](#) as an elective.
- Students should additionally seek the assistance of the program director if they wish to undertake the Physical Sciences major

Recommended enrolment pattern

- Students will normally take the core course [CMS1100 Communicating in the Sciences](#) or [CMS1000 Communication and Scholarship](#) in Semester 1 and [STA1003 Fundamental Statistics](#) in Semester 2 as well as another approved core course in each of their first two semesters.
- Students will normally start the Arts major in Semester 1 of first year and continue it in Semester 2 of first year. The Arts minor is usually started in Semester 1 of second year.
- The Science major is usually started in Semester 1 of first year and continued in Semester 2 of first year. The Science minor study is usually started in second year subject to timetabling constraints.
- Elective courses are usually taken in third or fourth years unless required as pre-requisites.
