Program aims

The Graduate Certificate of Aviation is a professionally-oriented program. It provides graduates with a thorough understanding of the principles and concepts of the aviation system, its components, aircraft operations, aviation human factors and safety, and support and enabling processes. It addresses management and business principles, enabling graduates to critically analyse, evaluate and manage any element of the aviation system, including operations, aviation human factors, and support or ancillary roles. It will also provide opportunities to examine human factors and performance issues within an aviation context and aviation safety systems more generally.

Program objectives

On successful completion of the Graduate Certificate of Aviation, students will be able to:

- (1) use advanced knowledge of the aviation industry with depth in the underlying principles and concepts in their professional practice
- (2) apply initiative and judgement in planning, problem solving and ethical decision making in a professional aviation context
- (3) apply critical thinking and judgement in supervised, practical situations within the aviation industry
- (4) develop high level written and interpersonal communication skills appropriate to supervisory positions within the complex socio-technical aviation system
- (5) engage in a range of professional and ethical research skills and/or theoretical research methodologies appropriate to the aviation context
- (6) integrate relevant theory and practice related to a wide range of emergent, technological and human interface challenges within the aviation industry.

Australian Qualifications Framework

The Australian Qualifications Framework (AQF) is a single national, comprehensive system of qualifications offered by higher education institutions (including universities), vocational education and training institutions and secondary schools. Each AQF qualification has a set of descriptors which define the type and complexity of knowledge, skills and application of knowledge and skills that a graduate who has been awarded that qualification has attained, and the typical volume of learning associated with that qualification type.

This program is at AQF Qualification Level 08. Graduates at this level will have advanced knowledge and skills for professional or highly skilled work and/or further learning.

The full set of levels criteria and qualification type descriptors can be found by visiting www.aqf.edu.au.

Admission requirements

To be eligible for admission, applicants must satisfy the following requirements:

- Completion of an Australian university Bachelor degree in the area of aviation, management and/or psychology, or equivalent
or
A minimum of five years' professional work experience equivalent to a qualification at AQF Level 7.
- English Language Proficiency requirements for Category 3.

All students are required to satisfy the applicable [English language requirements](#).

If students do not meet the English language requirements they may apply to study a University-approved [English language program](#). On successful completion of the English language program, students may be admitted to an award program.

Program fees

Domestic full fee paying place

Domestic full fee paying places are funded entirely through the full fees paid by the student. Full fees vary depending on the courses that are taken. Students are able to calculate the fees for a particular course via the [Course Fee Schedule](#)

Domestic full fee paying students may be eligible to defer their fees through a Government loan called [FEE-HELP](#) provided they meet the residency and citizenship requirements.

Australian citizens, Permanent Humanitarian Visa holders, Permanent Resident visa holders and New Zealand citizens who will be resident outside Australia for the duration of their program pay full tuition fees and are not eligible for [FEE-Help](#).

International full fee paying place

International students pay full fees. Full fees vary depending on the courses that are taken and whether they are studied on-campus, external or online. Students are able to calculate the fees for a particular course via the [Course Fee Schedules](#).

Program structure

The Graduate Certificate of Aviation is comprised of four units of postgraduate courses, comprising two core courses and two specialisation approved courses.

Required time limits

Students have a maximum of 2 years to complete this program.

Core courses

Course	Semester of offer Online
Aviation Human Factors specialisation core courses:	
AVN5102 Safety Management and Human Factors in Aviation	S1
AVN8103 Managing a Safety Culture in Aviation	S2
Aviation Management specialisation core courses:	
AVN5102 Safety Management and Human Factors in Aviation	S1
AVN5101 Aviation Management	S2

Aviation Human Factors

Course	Semester or Trimester of offer (Online)	Enrolment Requirements
Select two courses from the following Aviation Human Factors specialisation approved courses:		
AVN8101 Managing Operations in Aviation	S1	
AVN5104 International Aviation Systems	S1	
MGT5000 Managing Organisational Behaviour^{!*}	S1, S3	
FIN5100 Data and Decision Making	Tri 1, Tri 2, Tri 3	Anti-requisite: ACC5502
MGT6133 Leading Organisational Change	Tri 1	Anti-requisite: MGT8033
AVN5101 Aviation Management	S2	
AVN5103 Human Factors Training in Aviation	S2	
AVN8102 Applied Human Factors in Aviation	S2	
AVN5106[@]	S2	
ECO5000 Managerial Economics	Tri 2	Anti-requisite: ECO5000 Economics for Managers

IT requirements

For information technology requirements please refer to the [minimum computing standards](#).

Other program requirements

Students must maintain good standing in this program. Please refer to the [Academic Standing, Progression and Exclusion Procedure](#).

Exit points

There are no exit points from the Graduate Certificate of Aviation.

Credit

Credit may be granted on the basis of equivalent courses undertaken at postgraduate level. In order for credit to be granted, the claim must meet the following specific requirements:

- the course passed was taken at least at Masters or equivalent level

- the course was passed within five years prior to the application (courses up to 10 years old may be considered if evidence is provided that the applicant has been employed in that field)
- the course passed is equivalent in objectives, content and weightings to a course prescribed in the Graduate Certificate of Aviation
- where the student has taken out an award from a recognised tertiary institution and is claiming credit on the basis of courses completed to meet the requirements of that program, the maximum credit on the basis of such courses shall be no greater than two courses for the Graduate Certificate of Aviation
- credit approved in this program will not automatically apply to other programs offered by the University of Southern Queensland.

Note: Where credit is granted, maximum and minimum duration will be adjusted in the same proportion as the credit, for example, where the maximum of 50 per cent credit is granted, maximum and minimum duration will be reduced by one-half.

Aviation Human Factors
