Program aims

The Master of Project Management and Master of Business Administration (MBAP) encapsulates the aims of each program. The Master of Project Management aims to produce graduates who have appropriate skills and knowledge to be capable of managing small, medium and large-sized projects as either a senior team leader, a project manager or project director. The Master of Business Administration is an advanced academic program for graduates from any discipline who have considerable business experience, and who have a recognised potential for advanced managerial responsibility. This program focuses on those areas of modern management that develop judgement, skills and attitudes that are essential to managerial responsibility.

Program objectives

The Master of Project Management aims to produce graduates who are able to:

- demonstrate underlying knowledge of the theoretical structure of project management as defined by the Project Management Body of Knowledge
- demonstrate essential skills in relation to identification and analysis of logistics management, and integrate logistics management into the overall operation of the organisation
- apply the theoretical principles of project management to a project environment in relation to project:
 - scheduling and time management
 - cost management
 - quality management
 - human resources management
 - communications management
 - risk management
 - procurement management
 - integration management
 - scope management
- apply management skills acquired through elective courses in the context of project management.

The Master of Business Administration will enhance student analytical skills related to management, people, markets, finance, and technical knowledge. Graduates will be able to solve complex organisational problems and be able to manage change through the mastery of particular skills related to creativity, information literacy, and self-reflection. The program focuses on how to demonstrate leadership in global sustainability and how to understand the nature of ethical decisions across contemporary business practice. The MBA program will enable graduates to work in virtual and non-traditional work environments and increase personal mastery in oral and written communication.

The objectives of the program are to produce graduates who are able to:

- demonstrate understanding of the basic theories and skills of modern management discipline areas
- display competence in a wide range of areas relevant to management practice at senior levels
- apply their knowledge of current behavioural, policy and strategic issues so as to improve organisational efficiency
- use well-developed communication skills to interact effectively with other people at a superior and lower work level
- comprehend, analyse and evaluate internal and external environmental forces, and develop strategic plans for the management of change
- demonstrate a thorough understanding of the relevant political, cultural and business environments, and of ethical standards in modern business
- analyse developments in a chosen area of management, and to critically evaluate the relationships between such developments and contemporary theory and practice
- further enhance their managerial skills through a commitment to ongoing managerial development.

Admission requirements
